

United States Senate

COMMITTEE ON FINANCE

WASHINGTON, DC 20510-6200

April 21, 2010

Via Electronic Transmission

John McCarthy
Deputy Director
Department of Health Care Finance
District of Columbia
825 North Capitol Street, NE
Washington, DC 20002

Dear Acting Director Mahaney:

In the United States, the federal and state governments spend roughly \$317 billion every year on the Medicaid program. As Ranking Member of the Senate Committee on Finance, I have an obligation to ensure that taxpayer dollars are appropriately spent on federal health care programs. Like the Medicare program, Medicaid suffers from systemic weaknesses that lead to fraud, waste, and abuse across the program, resulting in higher costs and less health care to those who are in need. The overutilization of prescription drugs, whether through drug abuse or outright fraud, plays a significant role in the rising cost of our healthcare system. The purpose of this letter is to request information regarding certain outliers in the District of Columbia's Medicaid program and what steps the District of Columbia takes to monitor rates of utilization.

In recent inquiries, I have asked the U.S. Department of Health and Human Services about physicians prescribing mental health drugs at astonishingly high rates. In addition to these concerns, a recent CNN report detailed the increasing abuse of OxyContin, Roxicodone, and Xanax. Specifically, the report described the role some pain management clinics and physicians play in the black market for these drugs. I write today to better ascertain how high rates of both mental health and pain medication utilization are affecting the Medicaid program, as well as how the District of Columbia's rates compare to the national rates.

To that end, please provide charts that list of the top ten Medicaid prescribers of the following drugs for the years 2008 and 2009. For each prescriber, please provide his/her prescriber identifier, and the number of prescriptions written per drug per year, and the total amount billed to Medicaid per drug, separated for each year.

- Abilify;
- Geodon;
- Seroquel;
- Zyprexa;
- Risperdal;

- OxyContin;
- Roxicodone; and
- Xanax.

I thank you in advance for your cooperation and request that you provide the requested documents and written responses by no later than May 5, 2010. In your reply, please format information into a chart like the examples provided below. All formal correspondence should be sent electronically in PDF format to Brian_Downey@finance-rep.senate.gov or via facsimile to (202) 228-2131. Of course should you wish to discuss this matter further, please do not hesitate to contact Christopher Armstrong of my Committee staff at (202) 224-4515.

Sincerely,

A handwritten signature in black ink, reading "Chuck Grassley". The signature is written in a cursive, slightly stylized font.

Charles E. Grassley
Ranking Member

GOVERNMENT OF THE DISTRICT OF COLUMBIA
Department of Health Care Finance

Office of the Deputy Director

Senator Charles E. Grassley
United States Senate
135 Hart Senate Office Building
Washington, DC 20510-1501

May 5, 2010

Dear Senator Grassley:

Please find attached the requested report on prescription medications for the District of Columbia Fee for Service Medicaid Program during calendar years 2008 and 2009. Please note that the data are reported according to National Provider Identifier (NPI) and ranked by number of prescriptions. The reports have been generated at the Health Insurance Contract Language (HICL) level and will therefore reflect brand name and generic utilization under each heading.

To monitor rates of utilization for all medications, the District of Columbia employs various methods, including monthly prescription utilization review by pharmacists as well as ongoing studies of potential fraud and abuse of the medication use system. There is also a Medicaid Drug Utilization Review board which monitors the prescribing patterns of our Medicaid providers and employs targeted interventions where appropriate.

Please do not hesitate to contact our drug utilization review pharmacist, Jamie Wilkins, Pharm.D. at 202-442-9078 or jamie.wilkins@dc.gov with any further questions.

Sincerely,

A handwritten signature in dark ink, appearing to read "John McCarthy", is written over the typed name.

John McCarthy
Deputy Director
District of Columbia Department of Health Care Finance

John McCarthy
Deputy Director
Department of Health Care Finance
899 North Capitol Street, NE, Suite 6037
Washington, DC 20002

Dear Mr. McCarthy:

On May 5, 2010, the Department of Health Care Finance provided my office with data regarding the top ten prescribers of several pain management and mental health drugs in your state. These types of drugs have addictive properties, and the potential for fraud and abuse by prescribers and patients is extremely high. Mental health drugs continue to be prescribed at astounding rates and pain management clinics are turning into a hotbed for black market painkillers. When these drugs are prescribed to Medicaid patients, it is the American people who pay the price for over-prescription, abuse, and fraud.

After an extensive review of prescribing habits of the serial prescribers of pain and mental health drugs in Washington, DC, I have concerns about the oversight and enforcement of Medicaid abuse in the District of Columbia. While I am sensitive to the concerns of misinterpretation of the data you provided, the numbers themselves are quite shocking.

For example, three medical providers wrote a combined 403 prescriptions for Abilify in Calendar year 2008 at a cost of \$215,583.43 to Medicaid. This accounts for more than 44 percent of the total amount prescribed in the District by the ten most

prolific prescribers of Abilify. One of these providers followed up in calendar year 2009 by leading in prescribing Abilify, Geodon, Seroquel, and Zyprexa with a cost to Medicaid of \$268, 422.96, \$81, 203.75, \$192, 570.94, and \$181, 498.77, respectively. This provider's number of prescriptions for Abilify rose from 77 to 495 from 2008 to 2009.

It is my intention to ensure that each of the states, along with the District of Columbia, is adequately monitoring, investigating, and stopping fraud and over-prescription of these types of drugs. Therefore, please provide answers to the following questions:

1. What action, if any, has your agency taken with respect to the prescribers identified to the Committee?
2. If there has been no action taken with respect to these prescribers, please explain why not.
3. Please identify which of the providers identified to the Committee remain eligible to bill the Medicaid Program.
4. Please provide the 2010 and 2011 numbers for the top prescribers of these same drugs.
5. Has each of these prescribers been cross-checked for complaints or misconduct with the state medical board or the National Practitioner Data Bank? If not, do you plan to do so?
6. Have any of the prescribers identified to this Committee been referred to the District medical board?
7. Is there any system set up in the District to identify and monitor excessive prescription writing? If not, why not?
8. Have you received any training or guidance from the Centers for Medicare and Medicaid Studies to help identify potential issues with prescription drugs?
9. Does the District maintain a database of all prescribed controlled-substances? If so, what entities have access to it?
10. Does the District have any point-of-sale restrictions related to maximum units, prior authorization, therapeutic duplication, or early refill? If not, why not?
11. Were any of these top ten prescribers identified in the federal-mandated Drug Utilization Review or CMS-base retrospective reviews?
12. Does the District have any programs in place to educate providers about the prescription of antipsychotics to children and adolescents?

Thank you in advance for your cooperation and attention in this matter. When responding to this letter, please number your answers in accordance with my questions. I would appreciate a response by February 13, 2012. If you have any questions, please do not hesitate to contact Erika Smith of my staff at (202) 224-5225.

Sincerely,

A handwritten signature in blue ink that reads "Chuck Grassley". The signature is written in a cursive, flowing style.

Charles E. Grassley
Ranking Member
Committee on the Judiciary

GOVERNMENT OF THE DISTRICT OF COLUMBIA
Department of Health Care Finance

Office of the Deputy Director

MAR 02 2012

Senator Charles E. Grassley
United States Senate
Committee on the Judiciary
Washington, DC 20510-6275

Dear Senator Grassley:

Please find attached the requested report on prescription medications for the District of Columbia Fee for Service Medicaid Program for calendar years 2010 and 2011. Please note that the data are reported according to National Provider Identifier (NPI) and ranked by number of prescriptions. The reports have been generated at the Health Insurance Contract Language (HICL) level and therefore reflect brand name and generic utilization under each heading.

The responses to your questions regarding the monitoring and oversight procedures in place to detect and avoid prescription misuse and abuse within the District Medicaid program are provided in a separate document accompanying this letter.

Please do not hesitate to contact Charlene Fairfax, RPh, Senior Pharmacist at 202-442-9076 or charlene.fairfax@dc.gov with any additional questions.

Sincerely,

A handwritten signature in black ink, appearing to read "Linda Elam", with a long horizontal flourish extending to the right.

Linda Elam, PhD
Medicaid Director

DISTRICT OF COLUMBIA

RESPONSES TO SENATOR GRASSLEY'S LETTER DATED JANUARY 23, 2012

What action, if any, has your agency taken with respect to the prescribers identified to the Committee?

- Although it is unclear the extent to which the supplied data represents clinically inappropriate care, the identified prescribers were referred to the Office of Program Integrity for further analysis and appropriate follow-up.

If there has been no action taken with respect to these prescribers, please explain why not.

- As above, the identified prescribers were referred for further analysis and follow-up.

Please identify which of the providers identified to the Committee remain eligible to bill the Medicaid Program.

- All identified prescribers remain eligible Medicaid providers at this time.

Please provide the 2010 and 2011 numbers for the top prescribers of these same drugs.

- Please see the two (2) attachments

Has each of these prescribers been cross checked for complaints or misconduct with the state medical board or the National Practitioner Data Bank? If not, do you plan to do so?

- This process is being conducted by the Office of Program Integrity and is currently in progress.

Have any of the prescribers identified to this Committee been referred to the District medical board?

- We are requesting clarification: Is the question asking whether the District Medicaid agency has referred any of the identified prescribers to the Board of Medicine? If so, the answer is not at this time. Any appropriate action will follow the completion of Office of Program Integrity review. If the question is whether **any** party has referred any of the identified prescribers to the Board of Medicine, the Medicaid program is unable to provide a response on internal proceedings of the Board.

Is there any system set up in the District to identify and monitor excessive prescription writing? If not, why not?

DISTRICT OF COLUMBIA

RESPONSES TO SENATOR GRASSLEY'S LETTER DATED JANUARY 23, 2012

- The Medicaid program utilizes point of sale edits to identify excessive utilization by beneficiaries. The District employs several processes to monitor for prescribing patterns, including patient profile reviews by the Drug Utilization Review Board and pharmacy claims analyses conducted by the Utilization Management unit within the Office of Program Integrity.

Have you received any training or guidance from the Centers for Medicare and Medicaid Studies to help identify potential issues with prescription drugs?

- The federal Medicaid Integrity Program which sends auditors to review Medicaid claims and provider practices has identified several algorithms to detect and address outlier prescribing patterns.

Does the District maintain a database of all prescribed controlled substances? If so, what entities have access to it?

- The District of Columbia City Council has introduced legislation to establish a database of all controlled substance prescriptions filled in the District.

Does the District have any point of sale restrictions related to maximum units, prior authorization, therapeutic duplication, or early refill? If not, why not?

- The District's Pharmacy Benefit Manager utilizes point of sale edits during the pharmacy claims adjudication process to address limits on maximum units, prior authorization, therapeutic duplication and early refills.

Were any of these top ten prescribers identified in the federal mandated Drug Utilization Review or CMS-base retrospective reviews?

- Yes

Does the District have any programs in place to educate providers about the prescription of antipsychotics to children and adolescents?

- The District of Columbia Board of Pharmacy plans to implement an academic detailing program that is intended to educate providers on treatment guidelines and clinical best practices. The Board of Pharmacy solicited input from the Medicaid program on medication utilization patterns and had identified antipsychotic drug use as a topic to be addressed.
- The Department of Health Care Finance is participating in the Center for Health Care Strategies, Inc. "Improving the Use of Psychotropic Medication Among

DISTRICT OF COLUMBIA

RESPONSES TO SENATOR GRASSLEY'S LETTER DATED JANUARY 23, 2012

Children and Youth in Foster Care.” The three year quality improvement initiative is focused on improving the prescribing practices of psychotropic medications among children and youth in foster care. This is a joint effort with the DC Department of Mental Health and the Child and Family Services Agency.
